MARCEVAGGI GROUP

TWO **LEADING COMPANIES**

Marcevaggi Group boasts **90 years** of experience in the transport and logistics of special goods. Thanks to an approach based on partnership and the loyalty of its management, through its subsidiaries **STAR SpA and LEVORATO MARCEVAGGI srl**, the holding company looks to the future by renewing itself and investing in training and technology in order to shorten the distances between people, places and goods, favoring sustainable, economic, social and environmental growth.

MARCEVAGGI

TURNOVER

THE **GROUP** THROUGH **3 GENERATIONS**

1934

- Marcevaggi was founded by **Cav. Lav.* Mario Remondini** who, in 1934, took over a small company in the port of Genoa, whose name was derived from the telegraph code of its founder **Luigi Marcello Vaggi.**
*Order of Merit for Labor

1970

- His son **Cav. Lav. Emanuele Remondini**, together with his brothers, led the company towards a more international vision; he bought **STAR SpA** in the 1970s and founded a **JV**, with the Levorato family in the 2000s.

2000

- Since 2000, **MARCEVAGGI Group** has consisted of two companies: **STAR SpA** (logistics of chemical products) and **LEVORATO MARCEVAGGI Srl** (transport of gas and into-plane services at airports).

2004

- **Alberto Remondini** joined the company. His experience in finance, logistics and maritime transport led him to become, 8 years later, the **CEO** of **STAR SpA** and **Member** of the **Board of Directors** of **Levorato Marcevaggi**.

STAR MARCEVAGGI

LOGISTICS
AND TRANSPORT

STAR specializes in the **transport of liquid and solid bulk products**, chemicals and special waste in particular. Together with its affiliates, it boasts a **fleet of over 1,000 units**, including tractors, semi-trailers, tank containers, swap tanks and open tops, and ranks among the leaders in the Italian and European markets in the special transport sector in which it operates.

SERVICES/STAR MARCEVAGGI

LIQUID BULK TRANSPORTATION

STAR SpA is engaged in the **transportation of liquid bulk, as chemicals, fats, oils** and **special waste** in Europe and in the Mediterranean, using a fleet suitable for the respective criticalities of the products handled. The company offers its services **by road** and **intermodal modes**, by rail and by sea.

TYPES OF TRANSPORTATION

DRY BULK TRANSPORTATION

The company offers the **transportation of dry bulk products**, in particular **special waste** and **bulk goods of various types**. The fleet we use was studied by innovative manufacturers in order to maintain high **safety** standards and **water-tightness**, as well as to achieve maximum transport capacities.

TYPES OF TRANSPORTATION

SERVICES/STAR MARCEVAGGI

STORAGE AND WAREHOUSING

The company offers customers **storage and warehousing services**. More specifically, STAR SpA has a number of strategic areas authorised for the storage of **hazardous goods** in **TANK** and **BOX CONTAINERS**, thus optimising the supply network of Italian industrial plants.

STAR has its **own cleaning and washing facilities** for tanks, containers and other vehicles, which includes **two recently made facilities in Genoa and Milan**.

MARITIME SHIPPING

STAR SpA offers transport and shipping services, customs services, intermediate container storage, terminal and maritime services and assistance at destination for the **main Italian and European ports**.

STAR SpA offers maritime services in the Mediterranean with its **own equipment fleet**, as well as overseas with partners providing agency services and connections with the **global leaders in shipping container operations**.

OUR **FLEET**

1000+ Units in total

The company fleet consists of more than **1,000 units**. The vehicles are equipped with GPS tracking and control systems integrated. They are deployed and used in European countries and in the Mediterranean area.

OPEN TOP

Top-loading swap bodies used for the transport, by road and rail, of solid bulk products.

ROAD BARREL

Tanks used for the road and rail transport of bulk liquids, including those of chemical nature.

SWAP TANK

Chassis containers designed for the road, rail and sea transport of liquid bulk products.

ISO TANK

Tank containers used for the transport of liquid, hazardous and non-hazardous bulk products, by land (road or rail) and by sea.

LEVORATO
MARCEVAGGI

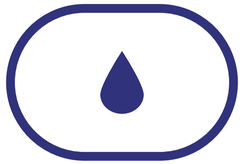
» GAS TRANSPORT AND AIRPORT REFUELLING LOGISTICS

Levorato Marcevaggi specializes in the **transport and delivery of compressed, cryogenic and liquefied gases** and provides a **jet fuel storage and intoplane fueling** service at major Italian and European airports.
The company has a fleet of more than 500 vehicles located in the Group's locations in Europe and Italy, and it can meet all the needs.

SERVICES /LEVORATO MARCEVAGGI

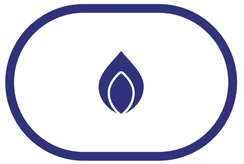
JET FUEL STORAGE AND INTOPLANE FUELLING SERVICE

For airports, oil companies and airlines, available H24, in accordance with the necessary authorizations.



TRASPORT OF GPL

The company possesses the necessary equipment for transporting LPG in bulk and in cylinders.



TRASPORT OF SPECIAL GASES

Compressed, cryogenic and liquefied gases by road and rail, with suitable and safe vehicles.

» INTO-PLANE SERVICE **FLEET**

Levorato Marcevaggi provides jet fuel storage and supply to airports and airlines, in accordance with JIG fuel quality and operating procedure standards.

The fleet includes tankers from 40 to 65 m3 and ‘dispenser’ vehicles for refueling via an underground hydrant network at equipped airports. The vehicles, equipped with electronic header, plate and double hose, guarantee refueling for all types of aircraft.

» GAS TRANSPORT **FLEET**

Levorato Marcevaggi has worked in the **European road transport of hazardous goods** sector for more than 70 years and is today one of the leading players among **oil and compressed, cryogenic and liquefied gas companies**.

The fleet includes more than **250 vehicles** at the Group's locations in Europe and Italy. **Tankers equipped with the latest generation of liter counters** ensure continuous supplies to roadside distributors. **Tank containers for refrigerant and liquefied gases** for road and intermodal transport complete the fleet and enhance the logistics structure.
